

Bucasia State School Safe School Travel (SafeST)

Bucasia State School in conjunction with the P&C Association and Aurecon Australia Pty Ltd (Consulting Engineers) is currently preparing a submission as outlined in the Queensland Government SafeST process. As part of this process we would like to identify the problems and unsafe practices that currently exist during travel to and from the school.

To assist in identifying safety issues we would welcome any feedback from the community identifying unsafe practices or shortfalls in existing infrastructure.

We request that all submissions be as concise and factual as possible. Submissions could include (but not be limited to) unsafe practices relating to:

- Cycling
- Pedestrians
- Drop off and pick-up
- Parking
- Driving
- Activities while waiting for pick-up
- Bus collection for excursions
- Service vehicles

Please note: Particular people should not be identified in submissions and all details provided will be treated as confidential. Submitter contact details may be included but are not required. Comments may be included on this form or marked on the attached site sketch.

Safety issues observed:

Name and contact details (optional, if you are happy to be contacted to clarify any details):

This form can be returned to Miss Rose, the school office or alternatively email your submission or comments to **bucasiass_safety@hotmail.com**
